

## NEW YORK GREET'S MAY DAY WITHOUT SINGLE STRIKE

Labor and Employers at Peace  
For a Time—Two Big  
Parades Scheduled.

IT'S MOVING DAY, TOO.

But There's Not So Much  
"Shifting" as Usual, and  
Fewer Evictions.

Several things tend to make this an unusual May Day. There will not be so much shifting about of families, and there will be fewer dispossessed families from reports. It is to be a strikeless day for New York, also, as far as known.

There used to be a time when the Dispossessed Club was the busiest little institution in the borough. This name was irreverently given the muscular individuals who followed the busy marchers around and helped dump the furniture of unfortunate into the streets.

But times have changed. The rapid transit facilities have enabled hundreds to move farther out, and east side landlords say they have more vacant apartments than ever before. Hence rents are cheaper and fewer are unable to pay up.

Landlords all over the city are reforming. It is alleged, because they can no longer bully and browbeat where the supply of homes is so much greater than the demand. As to the Dispossessed Club, it is a thing of the past. There were not enough for it to do.

No one at the labor headquarters proposed to-day to know of any strikes scheduled. Practically all the strikes of the last year have been settled.

There will be parades of Socialists and of the United Hebrew Trades.

It is estimated that over 10,000 persons will march early this afternoon from Madison Square to Union Square, where there will be five speaking platforms.

The uptowners will march down from the Labor Temple in West Eighty-fourth Street.

In the line will be 1,000 or more labor bakers, accompanied by an immense cake and loaf of bread made from three barrels of flour.

Five hundred children of the Federation and Female silk strikers will march in the uptown parade.

The Eastern railroad will meet the representatives of the conductors and brakemen here to-day and will give an answer to the demand of the men for increased wages.

The locomotive firemen recently were awarded a 13 per cent increase by a Federal arbitration board. The trainmen expect to go through arbitration and they ask as much as the firemen requested—15 per cent.

The journeymen bakers in the smaller places throughout the city are being canvassed by the Industrial Workers of the World leaders, who are trying to get up a strike among them.

The bakers in the big bread factories

settled their own troubles with the bosses months ago, but it is said I. W. W. organizers are getting among them too. A meeting of the kosher bakers in the smaller shops will be held tonight, when the question of a strike will be talked over.

### NO TIDINGS OF BLUECOAT.

Kiely Went on Vacation April 1, and His Wife Has Heard Nothing.  
Patrolman James A. Kiely of the West One Hundred and Twenty-fifth street station has been missing since

April 1, when he got ten days' leave of absence, announcing he was going to his home town, Housick Falls, for a vacation.

He did go to Housick Falls, but did not communicate with his wife at their home, No. 60 West One Hundred and Twenty-seventh street, or with any men in the department. Mrs. Kiely yesterday moved her household effects to Housick Falls, believing he had met a tragedy and.

Kiely had been on the force since 1897 and had a clean record. His remaining away without leave has lost him his position.

For them to be sold under price, on the threshold of the Summer season, is as remarkable as is the reason therefor.

**The Two Courses**

There were two courses open to us in the disposal of to-day's vast assortment. But we ignored the selfish one—which was to sell in bulk at wholesale, under price.

Instead, we chose to dispose of them through our own stores—and give to our patrons the profit resulting from the loss in our wholesale department.

For we know that each stranger attracted to this sale will be forever after a convert to Hackett-Carhart clothes. Naturally, this will be so.

The fabrics throughout are from the foremost weavers on both sides of the Atlantic.

The trimmings and the linings are the very best that are used. Finest custom garments are not trimmed better.

The tailoring is of the highest character known to ready-to-wear service. And each garment embodies the cumulative knowledge of many years of fine clothes building.

**The Advanced Models**

The models are distinctive, correct, and of the most advanced types to be found in New York. Fashionable custom tailors can offer no more in style than these garments afford.

Also a wide range of our own distinctive productions, which have always held favor with well-dressed New Yorkers.

The fabric designs from which you may choose include the very choicest of clever creations—and are of the most exclusive, most fashionable weaves and colorings. As follows:

**The Reason:** At the height of our manufacturing season arose labor conditions which made our immense tailoring plant—the finest under one roof in New York—"mark time" for two solid months. Fine retailers who handle our product throughout the United States could not wait. Orders were cancelled right and left. About 25,000 garments, all told.

For these, the fabrics had been bought, and the garments were in process of making—and later on we had an army of experts to keep busy.

We might readily wholesale the result to-day at the prices made to you—but we prefer that Hackett-Carhart customers shall reap the benefit.
